### Cuckoos Cowbirds And Other Cheats

Cuckoos and cowbirds are amongst the select bird groups renowned as professional parasites, who always lay their eggs in the nests of other species. Occasional parasitic laying is also widespread in many other birds, who gladly parasitise the nests of their own kind when the opportunity arises.

Cuckoos and cowbirds are amongst the select bird groups renowned as professional parasites, who always lay their eggs in the nests of other species, and this book describes the natural histories of all the brood parasites and examines the exciting questions they raise about the evolution of cheating and the arms race between parasites and their hosts.

### Cuckoos, Cowbirds and Other Cheats | NHBS Academic ...

Cuckoos, Cowbirds and Other Cheats can be read with enjoyment by anyone interested in these perverse, destructive, yet fascinating birds. Davies tells the stories of the brood parasites and those who study them in a highly readable style, with a careful observer's eye for the birds' natural surroundings and with touches of humour.

### Cuckoos, Cowbirds and Other Cheats (Poyser Monographs ...

In Cuckoos, Cowbirds and other Cheats, Davies presents a masterful synthesis of this work. I particularly liked the way that he acknowledges the contributions of early (including amateur) workers in the field, whose pioneering work is often forgotten in modern science.

### Of cuckoos and other cheats: Trends in Ecology & Evolution

British field ornithologist Davies (Cuckoos, Cowbirds, and other Cheats) dials into the parasitic behavior of Britain's favorite harbinger of spring, the cuckoo, as he details the "evolutionary arms race" between cuckoos and their hosts, which yields adaptations and behavior that seem exquisitely well-tuned, but sometimes incomprehensibly sloppy.

### Cuckoo: Cheating by Nature by Nick Davies, Hardcover ...

The Pacific long-tailed cuckoo (*Urodynamis taitensis*), also known as the long-tailed cuckoo, long-tailed koel, sparrow hawk, home owl, screecher, screamer or koekoeā in Māori, is a species of the Cuculidae bird family (the cuckoos). It is a migratory bird that spends spring and summer in New Zealand, its only breeding place, and spends winter in the Pacific islands.
