Taking a few extra steps to fine-tune your brand messaging will help you reach the right people. 1. Understand Who They (Really) Are ... those in your ideal target audience already know and trust ...

4 Ways To Fine-Tune Your Messaging To Target Ideal Audience

Start 5 meters away from a 40cm target, aim the 12 O'clock position of the top edge of the entire target. Shoot a group of three arrows. Now move back to 10 meters. Aim at the exact same 12 O'clock position of the top edge of the target and shoot another group of three arrows.

Arrow tuning 101, Barebow edition - Understanding Archery

Target Tune is a product that uses a control module and 2 Bosch wideband AFR / Lambda sensors. It uses the existing closed loop, adaptive fuel control strategy in your Delphi ECM, but with changes made to the calibration to allow your ECM to use the wideband sensors. In order for the system to work, you must have a calibration flashed to your bike with the various edits required to make it work.

Target Tune FAQ's | Dynojet

What is Target Tune: Target Tune is an add on module for Dynojet Power Vision that uses a control module and 2 Bosch wideband AFR / Lambda sensors integrating them into the H-D Delphi ECM. It uses the existing closed loop, adaptive fuel control strategy in your Delphi ECM, but with changes made to the calibration to allow your ECM to use the wideband sensors, it is a plug in kit into the factory connectors.
