The Green Glass Sea is a beautiful book, as conveyed so well by Anita, and to my mind comes across as much like realistic fiction as historical fiction. While a young reader may (we hope) want to more about the era and the mystery surrounding the development of the bomb, the family-and-friendship story is also strong and compelling.

At the end as the families merge together they take a vacation and go to the bomb site. They gather the green glass that is the result of the bomb melting the sand, but check each piece with a geiger counter before they put them in the car. I'm shocked they let the kids pick up and hold radioactive glass.
